**What are the symptoms of COVID-19?**

Patients with COVID-19 have had mild to severe respiratory illness. The following symptoms may appear 2-14 days after exposure:

- Fever
- Cough
- Shortness of breath

Reported illnesses have ranged from mild symptoms to severe illness and death. Call your doctor if you develop these symptoms, and have been in close contact with a person known to have COVID-19, or have recently traveled from an area with widespread or ongoing community spread of COVID-19.

**How can you prepare?**

**Wash your hands!**

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.

**Practice Social Distancing - Avoid close contact**

- Avoid close contact with people who are sick
- Put distance between yourself and other people if COVID-19 is spreading in your community. This is especially important for people who are at higher risk of getting very sick.

Be prepared with cleaning supplies and PPE
